NOTICE

1. Please read the contract on the reverse side and become familiar with the transaction.

2. If the contract includes Chometz that belongs to someone else, please be sure that you have received at least verbal authorization from the owner to include it in this contract.

3. Please be meticulous in checking only those items that you have or may have. Checking all items indiscriminately does not do the transaction justice.

4. All items included in the sale should be sealed off and made inaccessible by locking, taping, tying, or erecting a Mechitza.

5. Chometz pots, dishes, and eating utensils are not sold but must be secluded and made inaccessible nonetheless.

6. Chometz which may be in a secluded area of an appliance (*e.g.* motor housing of a mixer) is included in the sale.

7. Kitnious (legumes such as rice, beans, *etc.*) need not be sold, even though we do not eat them on Pesach.

8. Be aware, that from the time of the sale to the non-Jew, the purchaser has right of access to any area which is rented to him, or any Chometz that is sold to him and he may take it and use it as he wishes even on Yom Tov. He will owe you the remainder of the purchase price as will be determined by three experts after Pesach.

9. Please write legibly, especially your name and address, so that the purchaser can know who the seller is and where the Chometz is located.

10. It is preferable to leave a key with a neighbor if you will spend part of Yom Tov out of town. However , if you leave town any time before the sale is concluded on Erev Pesach, it is absolutely imperative that you leave a key in town with a neighbor or friend and inform me of its location . The sale is usually concluded approximately one half hour before זמן שריפת חמץ .
